

# FREEDOM RING

*American Telephone Company's Mobility Solutions*

**ATC gives you the ability to stay connected in or out of the office. Freedom Ring** (also known as Find Me/Follow Me or Call Hunt) allows you to route office phone calls to your other devices so you can be accessible wherever you are. The best part is, since calls are routed to your mobile devices, one phone number is all you need to stay connected.

## Freedom Ring Benefits at a Glance

### Never Miss a Call

Customize settings to allow you to receive calls no matter where you are.

### Call Forwarding

Determine exactly how you want to route your incoming calls when the line is busy or when a call goes unanswered. Certain incoming calls can also be redirected to specified destinations depending on your preferences.

### Simultaneous Ring

Conveniently set up incoming calls to ring on multiple devices or extensions at the same time.

### Sequential Ring

Arrange your designated devices or extensions to ring in a specified sequence.

### One Number For All Devices

Your Freedom Ring number can be routed to all mobile devices, allowing access to your business contacts without having to give out your personal number.

### Manage All Settings in Online Portal

Access all settings within your online portal. You can customize and make changes to your setup at anytime.
