TARIFF FORMAT SHEET

- A. Page Numbering. Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added, the page appears as a decimal. For example, a new page added between pages 14 and 15 would be 14. 1.
- B. Page Revision Numbers. Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utilities Commission. For example, the 4th revised Page 14 cancels the third revised Page 14. Because of deferrals, notice periods etc., the most current page number on file with the Commission is not always the tariff page in effect. Subscriber should consult the check page for the page currently in effect.

SECTION 2 – GENERAL RULES AND REGULATIONS**2.1 USE OF SERVICES****2.1.1 Obligation of the Company**

In furnishing facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its facilities to its customers for communications. The Company undertakes to furnish communications services pursuant to the terms of this tariff in connection with one-way and/or two-way information transmission between points within the State of Pennsylvania.

- A. The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.
- B. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.
- C. The Company will at all times comply with Pa. Code 52 § 64 regarding residential billing standards.

The Company's obligation to furnish service is dependent upon its ability (a) to secure and retain, without unreasonable expense, suitable facilities and rights for the maintenance of the necessary circuits and equipment.

2.1.5 Directory Listings

Directory Listings will be made available in cooperation with underlying carriers who regularly publish an annual directory. In the absence of gross negligence or willful misconduct and except for the allowances stated below, no liability for damages arising from errors or mistakes in or omissions of the directory listings, or errors or mistakes in or omissions of listings obtainable from the directory assistance operator, including errors in the reporting thereof, shall be attached to the Company. An allowance for errors or mistakes in or omissions of published directory listings or for errors or mistakes in or omissions of listings obtainable from the directory assistance operator shall be given as follows:

1. Free Listings: For free or no-charge published directory listings, credit shall be given at the rate of two times the monthly tariff rate for an additional or charge listing for each individual, auxiliary or party line, PBX trunk or Centrex attendant loop affected, for the life of the directory or the charge period during which the error, mistake or omission occurs.
2. Charge Listings: For additional or charge published directory listings, credit shall be given at the monthly tariff rate for each such listing for the life of the directory or the charge period during which the error, mistake or omission occurs.
3. Operator Records: For free or charge listings obtainable from the records used by the directory assistance operator, upon notifications to the Company of the error, mistake or omission in such records by the subscriber, the Company shall be allowed a period of three business days to make a correction. If the corrections is not made in that time, credit shall be given at a the rate of 2/30ths of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected. (Where Centrex attendant loops are involved, credit shall be given at the rate of 2/30ths of the basic monthly rate for PBX trunks)

2.1.5 Directory Listings

4. Credit Limitations: The total amount of the credit provided for the preceding paragraphs 1, 2, and 3 shall not exceed, on a monthly basis, the total of the charges for each charges listing plus the basic monthly rate, as specified in paragraph 3, for the line or lines in question.
5. Definitions: As used in paragraphs 1, 2, 3, and 4 above, the terms “error,” “mistake” or “omission” shall refer to a discrepancy in the directory listing or directory assistance records which the Company has failed to correct and where the error affects the ability to locate a particular subscriber’s correct telephone number. The terms shall refer to addresses only to the extent that an error, mistake or omission of an address places the subscriber on an incorrect street or in an incorrect community.
6. Notice: Such allowances or credits as specified in paragraphs 1, 2, and 3 above, shall be given upon notice to the Company by the subscriber that such error, mistake or omission has occurred; provided, however, that when it is administratively feasible for the Company to have knowledge of such error, mistake or omission, that Company shall give credit without the requirement of notification by the subscribers.

2.1.6 Blocking of Service

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.2 MINIMUM PERIOD OF SERVICE**

The minimum period of service is one month except as otherwise provided in this Tariff. The customer must pay the regular tariffed rate for the service they subscribe to for the minimum period of service. If a customer disconnects service before the end of the minimum service period, that customer is responsible for paying the regular rates for the remainder of the minimum service period. When the service is moved within the same building, to another building on the same premises, or to a different premises entirely, the period of service at each location is accumulated to calculate if the customer has met the minimum period of service obligation.

If the service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the premises to be abandoned, or by the death of the customer, the customer is not obligated to pay for service for the remainder of the minimum period.

If service is switched over to a new customer at the same premises after the first month's service, the minimum period of service requirements are assigned to the new customer if the new customer agrees in writing to accept them. For facilities not taken over by the new customer, the original customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.3 PAYMENT FOR SERVICE RENDERED****2.3.1 Responsibility for All Charges**

Any applicant for facilities or service may be required to sign an application form requesting the Company to furnish the facilities or service in accordance with the rates, charges, rules and regulations from time to time in force and effect. The customer is responsible for all local and toll calls originating from the customer's premises and for all calls charged to the customer's line where any person answering the customer's line agrees to accept such charge.

2.3.2 Deposits

Subject to special provisions as may be set forth below of this Tariff, any applicant or customer whose financial responsibility is not established to the Company may be required, as a condition of new service, restoration of discontinued service, or subsequent service, to pay a deposit sum up to an amount equal to the total of the estimated local service for up to two months for the facilities and service.

The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Tariff regulations for the prompt payment of bills on presentations. Each applicant from whom a deposit is collected will be given a certificate of deposit and circular accordance with the Rules and Regulations of the Commission pertaining to customer deposits.

The Company, after notice in writing to the customer and after having given the customer an appropriate opportunity to respond to such notice, may terminate service and sever the connection(s) from the Customer's premises under the following conditions:

- 1) In the event of prohibited, unlawful or improper use of the facilities or service, or any other violation by the customer of the rules and regulations governing the facilities and service furnished, or
- 2) If, in the judgment of the Company, any use of the facilities or service by the customer may adversely affect the Company's personnel, plant, property or service. The Company shall have the right to take immediate action, including termination of the service and severing of the connection, without notice to the customer when injury or damage to the telephone personnel, plant, property or service is occurring, or is likely to occur, or
- 3) In the event of unauthorized use, where the customer fails to take reasonable steps to prevent unauthorized use of the facilities or service received from the Company, or
- 4) In the event that service is connected for a customer who is indebted to the Company for service or facilities previously furnished, that service may be terminated by the Company unless the customer satisfies the indebtedness within 20 days after written notification. See Section 2.10.7 regarding Deferred Payment Agreements.

B. Prohibited, Unlawful or Improper Use of the Facilities or Service

Prohibited, unlawful or improper use of the facilities or service includes, but is not limited to:

- 1) The use of facilities or service of the Company without payment of tariff charges;
- 2) Calling or permitting others to call another person or persons so frequently or at such times of the day or in such manner as to harass, frighten, abuse or torment such other person or persons;
- 3) The use of profane or obscene language;
- 4) The use of the service in such a manner such that it interferes with the service of other customers or prevents them from making or receiving calls;
- 5) The use of a mechanical dialing device or recorded announcement equipment to seize a customer's line, thereby interfering with the customer's use of service;
- 6) Permitting fraudulent use;
- 7) Failing to comply with terms of contract between the Company and Customer;
- 8) Improperly accessing Company records;
- 9) Failing to comply with CPNI requirements.

D. Change in the Company's Ability to Secure Access

Any change in the Company's ability (a) to secure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment (b) to secure and retain suitable space for its plant and facilities in the building where service is provided to the customer may require termination of a customer's service until such time as new arrangements can be made. No charges will be assessed the customer while service is terminated, and no connection charges will apply when the service is restored.

2.8.4 Emergency Termination of Service

The Company will immediately terminate the service of any customer, on request, when the customer has reasonable belief that the service is being used by an unauthorized person or persons. The Company may require that the request be submitted in writing as a follow-up to a request made by telephone.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.8 SUSPENSION OR TERMINATION OF SERVICE (Cont'd)****2.8.6. Cancellation Prior to Installation**

If, prior to cancellation by the Customer, the Company incurs any expenses in installing Service or preparing to install Service that it would not otherwise have incurred, a charge equal to the cost the Company incurred will apply. In no case will this charge exceed the charge for the minimum period of Services ordered, including installation charges and nonrecurring charges, and all amounts others may charge the Company that would have been chargeable to the Customer had Service been initiated.

2.8.7. Cancellation Associated with Special Conditions

Where the Company incurs an expense in connection with special arrangements of facilities or equipment and have begun before the Company receives a cancellation notice, a charge equal to the costs incurred applies. In such cases, the charge applies to allow the Company to recover the otherwise non-recoverable costs of engineering, labor, material, equipment and other related expenses.

2.8.8. Cancellation During Installation

If cancellation occurs between start and completion of service beginning, the Customer will be responsible for the estimated cost incurred, not to exceed the charge for the minimum period of services ordered and the total Non-Recurring Charges, including Termination charges, applicable to the entire Service ordered.

2.9 PROVISIONS APPLICABLE TO BUSINESS CUSTOMERS

2.9.1 Application of Rates

- A. Business rates as described in this Tariff apply to service furnished:
- 1) In office buildings, stores, factories, and all other places of a business nature;
 - 2) In hotels, apartment houses, clubs and boarding and rooming houses except when service is within the customer's domestic establishment and no business listings are provided; colleges, hospitals and other institutions; and in churches except when service is provided to an individual of the clergy for personal use only and business service is already established for the church at the same location;
 - 3) At any location when the listing or public advertising indicates a business or profession;
 - 4) At any location where the service includes an extension which is at a location where business rates apply unless the extension is restricted to incoming calls;
 - 5) At any location where the customer resells or shares exchange service;
- B. Public Access Line service is classified as business service regardless of the location.
- C. The use of business facilities and service is restricted to the customer, customers, agents and representatives of the customer, and joint users.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.9 PROVISIONS APPLICABLE TO BUSINESS CUSTOMERS (Cont'd)****2.9.2 Telephone Number Changes**

When a business customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to the telephone numbers assigned to any customer. The customer may order a Customized Number where facilities permit for an additional charge as specified in Section 5.10 of this tariff.

When service in an existing location is continued for a new customer, the existing telephone number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

2.9.3 Deposits

Deposits will be returned to a business customer upon cancellation of service or after one year, whichever event occurs first, unless the customer is delinquent in payment, in which case the Company will continue to retain the deposit until the delinquency is satisfied. If a service is involuntarily discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

2.9.4 Dishonored Checks

If a business customer who has received a notice of discontinuance pays the bill with a check that is subsequently dishonored, the account remains unpaid and the Company is not required to issue any additional notice before disconnecting service.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.10 PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS****2.10.1 Application of Rates**

Residential rates as described in this Tariff apply to service furnished in private homes or apartments (including all parts of the customer's domestic establishment) for domestic use. Residential rates also apply in college fraternity or sorority houses, convents and monasteries, and to the clergy for domestic use in residential quarters.

Residential rates do not apply to service in residential locations if the listing indicates a business or profession. Residential rates do not apply to service furnished in residential locations if there is an extension line from the residential location to a business location unless the extension line is limited to incoming calls.

The use of residential service and facilities is restricted to the customer, members of the customer's domestic establishment, and joint users.

2.10.2 Telephone Number Changes

When a residential customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to any telephone number assigned to a customer for local service. The customer may order a Customized Number where facilities permit for an additional charge as specified in Section 5.10 of this Tariff.

When service in an existing location is continued for a new customer, the existing number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.10 PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)****2.10.3 Deposits****A. General**

Except as provided in (B) following, the Company may require a deposit, as described in Section 2.3.2 of this Tariff, from a residential customer who is applying for service if the customer: 1) has had service terminated for nonpayment once within the preceding six-month period, or 2) is delinquent in payment. A customer is delinquent in payment if that customer has received two consecutive telephone bills without making payment of at least one-half the total arrears due on the due date of the second bill. A customer is not considered delinquent, however, if an amount in dispute is not paid before the dispute is resolved.

An existing customer is an applicant for service who was a customer of the Company within twelve months of making the request, provided that prior service was not terminated for nonpayment, unless service is requested within 10 days of such termination for nonpayment. Applicants for residential service and existing residential customers are permitted to pay deposits in installments over a period not to exceed 6 months.

A new customer is an applicant for service who has not been a customer of the Company within twelve months of making the request for service. A new customer shall not be required to post a security deposit as a condition of receiving telephone calls.

A seasonal customer is an individual who applies for and receives telephone service periodically each year, intermittently during the year or at other regular intervals scheduled at the time of the application. A seasonal customer may be required to post a deposit.

- 1) A new customer or existing customer who is 62 years of age or older shall be exempt from any deposit requirement unless such person's telephone service was terminated for nonpayment during the preceding six months. Proof of age will be required from any person claiming exemption from deposit requirements because of age. If the proof requested by the Company is not received within 30 days from the date service is connected, or 30 days from the date that verification of age is requested from an existing customer, the Company may suspend or terminate service unless the customer pays the required deposit. Any new customer or existing customer 62 years of age or older shall be permitted to pay a deposit in installments over a period not to exceed 12 months.

- 2) The Company shall not require any person it knows to be a recipient of public assistance, supplemental security income or additional state payments to post a deposit.

A customer who has a recent payment history (within the preceding twelve months) with the Company are entitled to service without payment of a deposit unless their records indicate that they are delinquent in payment or have had service terminated for nonpayment. A customer who still owes money to the Company for residential service on a prior account shall be offered a deferred payment plan provided that the customer had service for three months and was not terminated for nonpayment during that period. (See Deferred Payment Agreements, 2.10.7 below.)

New deposits from a residential Customer are reviewed after the first 3 monthly bills have been rendered; if too much has been taken, the excess is returned. The entire deposit is returned to a residential customer after 1 year, unless the customer is delinquent in payment, in which case the Company may continue to retain the deposit until the delinquency is satisfied. If the service is discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

2.10.4 Installment Billing For Nonrecurring Charges

A residential customer may elect to pay service connection and other nonrecurring charges associated with a service order in monthly installments for up to a 12-month period. When installment billing is requested, all nonrecurring charges associated with a given service order will be included in the calculation of the monthly installment.

- A. Installment billing may be used only by residential customers;
- B. Charges will be billed in the number of installments of equal dollar amounts as requested by the customer up to a maximum of 12 installments over the course of 12 months;
- C. A customer may not pay a portion of the charges and then request installment billing for the remaining charges;
- D. More than one installment plan may be in effect for the same customer at the same time;
- E. If a customer disconnects service during the installment payment period, all unbilled charges will be included in the final bill rendered;
- F. A customer may elect to pay the unbilled charges before the expiration of the installment plan;
- G. Installment billing payments will continue even when an account is temporarily suspended;
- H. No interest or carrying charges will be applied to the outstanding balance during the installment period.

A customer on fixed income (e.g., pension and public assistance) shall be offered the opportunity to pay his or her bills on a reasonable schedule that is adjusted for periodic receipt of income.

2.10.6 Suspension or Termination for Nonpayment

- A. Suspension/termination notices may not be issued until at least 26 days after the date of the bill. Bills must be mailed to the customer no later than 6 business days after the date of the bill.
- B. After issuing the written notification in accordance with the terms of this Tariff, at least one attempt shall be made during non-working hours to contact the residential customer by telephone before the scheduled date of suspension/termination.
- C. Suspension/termination may occur only between the hours of 8 a.m. and 4 p.m. Monday through Thursday, provided that such day or the following day is not a public holiday or a day on which the main office is closed. In addition, service may not be disconnected during the period of December 23 through the 26 and December 30 through January 2.
- D. Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the customer does not pay the undisputed portion after being asked to do so. Suspended or terminated residential service shall be reconnected within 24 hours following payment or within 24 hours of the end of circumstances beyond the Company's control which delay the reconnection. The Commission may direct that service be reconnected in less than 24 hours.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.10 PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)****2.10.7 Deferred Payment Agreements**

Service will not be suspended or terminated unless the customer has been advised that a deferred payment plan can be arranged. An existing residential customer with three or more months service and for whom service has not been terminated for nonpayment is eligible for Deferred Payment Arrangements (DPA). Final notice of suspension/termination will advise the customer of deferred payment arrangements and will include, in bold print, a notice that assistance in reaching an agreement may be obtained from the Commission. The DPS notice will be mailed no less than six days before termination of total service.

A DPA will be for a period agreed to by both the customer and the Company.

If the Company believes that the customer has the resources to pay the bill, it shall notify both the customer and the Commission in writing of the reasons for its belief. The Commission shall make the final determination as to whether a DPA should be provided. A customer with medical emergencies and a customer who is elderly, blind or disabled shall be exempt from such eligibility criteria.

2.10.8 Dishonored Checks

When a check received from a residential customer is dishonored, the company shall make two attempts, one outside of normal business hours, to contact the customer within 24 hours. The customer shall be given an additional 24 hours to pay before suspension/termination. The additional notice will be given provided that the customer has not submitted a dishonored check within the past 12 months.

2.10.9 Suspension or Termination – Abandonment

Suspension/termination of residential service for abandonment or unauthorized use may occur only after the Company makes a reasonable attempt to determine occupancy or authorized use, or the customer takes reasonable steps to prevent unauthorized use. A notice must be sent to the customer five days before such suspension or termination. The notification requirement is waived when previous mailings are returned by the Post Office or the company is advised that a new customer has moved into the location.

2.10.10 Suspension or Termination – Medical Emergencies

In the event of a medical emergency, an additional 30 days will be allowed for a residential customer before suspension or termination. A medical certificate must be supplied. The medical emergency status may be extended beyond 30 days upon submission of specified documentation. During the emergency, the customer will be able to defer payment of monthly charges up to an amount specified by the Commission until the emergency ceases or it is determined that the customer has the ability to pay the charges. Charges in any month in excess of the amount specified are due by due date of the bill.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.12 ALLOWANCES FOR INTERRUPTIONS IN SERVICE**

Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

2.12.1 Credit for Interruptions

- A. An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- B. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on pro rate basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.12.1 Credit for Interruptions (Cont'd)

C. A credit allowance will be given, upon request of the customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows.

1) if interruption continues for less than 24 hours:

- a. $1/30^{\text{th}}$ of the monthly rate if it is the first interruption in the same billing period.
- b. $2/30^{\text{ths}}$ of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.

2) if interruption continues for more than 24 hours:

- a. if caused by storm, fire, flood, or other condition out of Company's control, $1/30^{\text{th}}$ of the monthly rate for each 24 hours of interruption.
- b. for other interruption, $1/30$ of the monthly rate for the first 24 hours and $2/30^{\text{ths}}$ of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the $2/30^{\text{ths}}$ allowance applied to the first 24 hours of the second and subsequent interruptions.

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

D. Credit to Customer

Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.

SECTION 2 – GENERAL RULES AND REGULATIONS (Cont'd)**2.13 AUTOMATIC NUMBER IDENTIFICATION****2.13.1 Regulations**

The Company will provide Automatic Number Identification (ANI) associated with an intrastate service, by tariff, to any entity (ANI recipient), only under the following terms and conditions:

- A. The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction.
- B. The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established customer relationship, a product or service that is directly related to products or service previously purchased by the telephone subscriber for the ANI recipient.
- C. The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.

2.13 AUTOMATIC NUMBER IDENTIFICATION (Cont'd)

2.13.1 Regulations (Cont'd)

- D. The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any third party for any use other than those listed in Provision 1, unless the ANI recipient obtains the prior written consent of the subscriber permitting such resale or disclosure.
- E. Telephone Corporations must make reasonable efforts to adopt and apply procedures designed to provide reasonable safeguards against the aforementioned abuses of ANI.
- F. Violations of any of the foregoing terms and conditions by an ANI recipient other than a Telephone Corporation shall result, after a determination through the Commission's complaint process, in suspension of the transmission of ANI by the Telephone Corporation until such time as the Commission receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Commission determines that there have been three or more separate violations in a 24 month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Commission.

2.13.2 Terms and Conditions

Violation of any of the foregoing terms and conditions may result in Commission prosecution of penalty and enforcement proceedings.

SECTION 3 – CONNECTION CHARGES**3.1 CONNECTION CHARGE****3.1.1 General**

The Connection Charge is a nonrecurring charge which applies to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or different location; or (d) restoral of service after suspension or termination. Connection Charges are listed with each service to which they apply.

Charges for Service Connection include:

- A. Service Charge or Record Order Charge
- B. Premises Visit Charge
- C. Central Office Line or Port Charge or Line or Port Change Charge

All charges may not be applicable in all cases.

The general application of these charges is as follows:

- A. A Service Order Charge applies per customer order for all work or services ordered to be provided at one time, on the same premises, for the same customer. The charge recovers the cost of receiving, recording, and processing a customer's request for service. The Service Charge applies for connections, moves, changes of equipment or service, changes of telephone number and wherever line or port, installation, connection, initial or other one time charges apply, except where otherwise specified.
- B. A Premises Visit Charge applies per customer order when the company must dispatch an employee to complete a customer-requested installation or service change. A Premises Visit Charge applies per customer order for all work or services ordered to be provided at one time, on the same premises, for the same customer. When more than one visit is required to complete the work ordered, only one Premises Visit Charge applies. A Premises Visit Charge applies to each premises visited to connect a line between different buildings on different premises, whether or not mileage charges are applicable to such lines.

SECTION 3 – CONNECTION CHARGES (Cont'd)

3.1 CONNECTION CHARGE (Cont'd)

3.1.1 General (Cont'd)

- C. A Central Office Line or Port Charge applies to the connection of lines and mileage circuits as follows:

Access Channel or Port (Central Office Termination), Individual Line or Port, Auxiliary Line or Port, Intercept Line or Port, Off-Premise Line or Port, Trunk or Trunk Port, Centrex Line or Port, Centralized Switching or Centralized Switching Port, Party Line or Port

3.1.2 Exceptions to the Charge

- A. No charge applies for a change to service for which a lower monthly rate applies, made within 90 days after any general rate increase, if a lower grade of service is offered in the customer's exchange.
- B. No charge applies for one change in the class of residence service, provided that the change is ordered within 90 days of the initial connection of the customer's exchange service.
- C. The Company may from time to time waive or reduce the charge as part of a promotion.

3.2 RESTORAL CHARGE

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section 2.8.1 of this Tariff.

SECTION 3 – CONNECTION CHARGES (Cont'd)

3.3 MOVES, ADDS AND CHANGES

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work has been done by the Company.

The customer will be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move: The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add: The addition of a vertical service to existing equipment and/or service at one location.

Change: Change – including rearrangement or reclassification – of existing service at the same location.

SECTION 3 – CONNECTION CHARGES (Cont'd)

3.4 RECORD ORDER CHARGE

A Record Order Charge applies for work performed by the Company in connection with receiving, recording, and processing customer requests where only changes in telephone company records are involved.

3.5 PRIMARY INTEREXCHANGE CARRIER CHANGE CHARGE

Customers may designate a Preferred Interexchange Carrier (PIC) to be the carrier of choice for toll calls. Toll calls are automatically directed to the designated carrier(s) without need to use access codes or additional dialing.

At the option of the Preferred Interexchange Carrier (PIC), a nonrecurring charge for a change in carrier may be billed to the carrier instead of the Customer. The Company may then bill the Customer on the monthly statement.

SECTION 5 – SUPPLEMENTAL SERVICES**5.1 CUSTOM CALLING SERVICE****5.1.1 General**

The features in this section are made available on an individual basis or as part of multiple features packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

5.1.2 Description of Features**A. Three Way Conference, Consultation, Transfer**

The Three Way Calling feature allows a customer to add a third party to an existing two-way call and from a three-way call. The call must have been originated from outside the station group and terminate to a station within the station group. The Call Hold feature allows a customer to put any in-progress call on hold by flashing the switchhook and dialing a code. This frees the line to allow the customer to make an outgoing call to another number. Only one call per line can be on hold at a time. The third party cannot be added to the original call.

B. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding is billed for the forwarded leg of the call.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.1 CUSTOM CALLING SERVICE (Cont'd)****5.1.2 Description of Features (Cont'd)****B. Call Forwarding (Cont'd)**

Call Forwarding – Busy automatically reroutes an incoming call to a customer predesignated number when the called number is busy.

Call Forwarding – Don't Answer automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within the number of rings programmed by the Company.

Call Forwarding – Variable allows the customer to choose to reroute the incoming calls to another specified telephone number. The customer must activate and deactivate this feature.

C. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

D. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The user is provided with up to two additional telephone numbers.

5.1.2 Description of Features (Cont'd)

E. Multiline Hunting

This feature is a line hunting arrangement that provides sequential search of available numbers within a multiline group. Circular and uniform hunting can also be selected.

Hunt group charges apply to sequential, circular and uniform hunting and queuing with announcement per queue slot.

F. Speed Calling

This feature allows a user to dial selected numbers using one or two digits. Up to eight numbers (single digit, or thirty numbers with two digits) can be selected.

G. Blocking Service or a telephonic block can only be removed pursuant to a written request by the customer of record, or the customer of record providing the correct password over the telephone, or by request made in person by such customer. The customer of record can provide a personal password to use to remove blocking service at the time blocking service is established.

5.1.3 Rates and Charges

A. Monthly Rates

Rates for this service are located in Section 12.

B. Connection Charges (Nonrecurring Charges)

Connection charges may apply when a customer requests connection to one or more customer calling features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 12 of this tariff.

C. Trial Period

The Company may elect to offer a free or reduced rate trial of any new custom calling feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials, below.

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all CLASS services. Transmission levels may not be sufficient in all cases.

5.2.2 Description of Features**A. Caller ID/Block Caller ID**

A calling party may block the passage of his/her telephone number, associated main listed name and voiceback of calling identification information to users or subscribers to Optional Central Office Services which utilize Signaling System 7 (SS7) technology. Per-Call Blocking will be automatically available to all Customers served by the Company, free of charge and on an unlimited basis. It is the responsibility of the customer to provide necessary CPE.

B. Automatic Callback

The Automatic Callback feature allows a customer to automatically Callback the last number dialed. This is accomplished by the customer activating a code. The network periodically tests the busy/free status of the called line for up to 30 minutes until both lines are found free and then Callbacks the call from the customer.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.2 CLASS SERVICES (Cont'd)****5.2.2 Description of Features (Cont'd)****B. Automatic Callback (Cont'd)**

The Automatic Callback feature also allows customers, having reached a busy number, to dial a code before hanging up. Automatic Callback feature then continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free the call is automatically called back and the customer is notified of the connected call via a distinctive ring.

The following types of calls cannot be Automatically Called back:

- Calls to 800 Service numbers
- Calls to 900 Service numbers
- Calls preceded by an interexchange carrier access code
- International Direct Distance Dialed calls
- Calls to Directory Assistance
- Calls to 911

C. Automatic Recall

The Automatic Recall stores the number of the most recent incoming call (including unanswered incoming calls) to a customer's number. This allows a customer to dial back any missed or unanswered telephone calls.

5.2.2 Description of Features (Cont'd)

D. Call Trace

Call Trace allows customers to key in a code that alerts the network to trace the last call received. The traced telephone number is automatically sent to the company for storage for a limited amount of time and is retrievable by legally constituted authorities upon proper request by them. By contacting the company the customer can use this application to combat nuisance calls.

E. Selective Call Acceptance, Forwarding, Rejection

Selective Calling affords the customer the ability to specify which of several phones on a line is to receive a message.

F. Call Park

A Call Park feature allows a call to be placed on hold on one telephone set while continuing a live call on another line. This feature is activated by pressing a pre-programmed button. Essentially, call parking temporarily assigns an extension number to an incoming call.

B. Call Pickup

This feature allows a user to answer any call within an associated preset pickup group. If more than one line in the pickup group has an unanswered incoming call, the call to be answered is selected by the switching system. Call Pickup answers a call that has been directed to another station within the same preset Call Pickup group.

C. Call Transfer – All Calls

Call Transfer allows a station user to transfer an established call to another station. The station from which the call is transferred will be assessed any long distance charges incurred as a result of the transfer.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.3 CENTREX SERVICE (Cont'd)****5.3.2 Description of Features****D. Directed Call Pickup with Barge-In**

This feature answers calls directed to a specific line from any other telephone line in the user group.

E. Directed Call Pickup without Barge-In

This feature is identical to the Directed Call Pickup with Barge-In except, if the line being picked up has already been answered, the party dialing the pickup code is routed to reorder (i.e., fast busy) rather than permitted to barge in on the established connection and create a three-way call.

F. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The pattern is based on whether the call is from within the station group, external to the station group, forwarded from the attendant position, or from a station with the Call Waiting feature.

G. Distinctive Ringing/Call Waiting Tone (Centrex Only)

This feature applies a distinctive ringing or call waiting tone that enables a user to determine the source of an incoming call. The pattern is based on whether the call is from within the station group, external to the station group, forwarded or extended from the attendant position, or from a station within the Call Waiting feature.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.3 CENTREX SERVICE (Cont'd)****5.3.2 Description of Features (Cont'd)****I. Circular Hunting**

This feature (similar to regular hunting) is a line hunting arrangement that allows all lines in a multi-line hunt group (MLHG) to be tested for busy, regardless of the point of entry into the group. When a call is to a line in MLGH, a regular hunt is performed starting at the station associated with the dialed number. It continues to the last station in the MLHG, then proceeds to the first station in the group and continues to hunt sequentially through the remaining lines in the group. Busy tone is returned if the original called station is reached without finding a station that is idle.

J. Speed Calling (Centrex Only)

This feature allows a user to dial selected numbers using one and two digits. Up to either telephone numbers may be selected.

K. Terminal Group and Station Restriction (Centrex Only)

This feature defines a station's network access capability, either individually within a Centrex group, or for the group as a whole. It defines the Centrex group and what level of access a station will have; i.e. intragroup only, toll restriction, etc.

L. Series Completion

This feature is a form of hunting similar to the multiline hunt group hunting and the Call Forwarding Busy Line feature. It allows calls to be made to a busy directory number to be routed to another specified directory number. The series completion hunt begins with the originally dialed member of the series completion group, and searches for an idle directory number from the list of directory numbers.

N. Account Codes

This feature adds an account number (code) to an Automatic Measured Accounting (AMA) and/or Measured Detail Recording (MDR) record for assigning customer charges. The number of digits in a customer's account code group will be defined by the Company.

O. Terminal Group and Station Restriction

This feature defines a station's network access capability either individually within a Centrex group or for the group as a whole. It defines the Centrex group and what level of access a station will have; i.e., intragroup only, toll restriction, etc.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.6 TRAP CIRCUIT SERVICE****5.6.1 General**

Trap Circuit Service is designed to allow the customer to control the release of an incoming call so that in situations involving emergency or nuisance calls, calls may be held and traced.

5.6.2 Regulations

- A. This service is provided when there is a continuing requirement for the identification of the calling party in cases involving nuisance calls or emergency situations or other situations involving law enforcement or public safety.
- B. The customer shall be required to sign a written request for this service. By signing the request the customer shall release the Company from any liability, and the customer agrees to indemnify and hold the Company harmless from any liability it may incur in providing this service. The Company may require the recommendation of an appropriate law enforcement agency prior to providing this service. Any information obtained by the Company in the tracing of a call will be provided only to the law enforcement agency designated. The only exception to this will be in emergency situations such as fire, serious illness or other similar situations, in which case the appropriate agency will be notified.
- C. The equipment required to provide this service cannot be operated in all central offices. The service is restricted to locations where facilities permit.
- D. The Company makes no guarantee concerning the tracing and identification of any call when the service is provided. The Company will furnish the service only on the express condition that no liability shall attach to it for any reason arising out of the provision of the service.

5.6.3 Rates

Upon request for this service, the monthly charge to the customer will be as outlined in Section 12 of this Tariff.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.7 DIRECTORY ASSISTANCE SERVICE****5.7.1 General**

A customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service. A customer can also receive assistance by writing the Company with a list of names and addresses for which telephone numbers are desired.

5.7.2 Regulations

A Directory Assistance Charge applies for each telephone number, area code, and/or general information requested from the Directory Assistance operator except as follows:

- A. Calls from pay telephones.
- B. Requests for telephone numbers of non-published service.
- C. Requests in which the Directory Assistance operator provides an incorrect number. The customer must inform the Company of the error in order to receive credit.
- D. Requests from individuals with certified visual or physical handicaps in which the handicap prevents the use of a local directory. Individuals must be certified in accordance with the terms outlines under “Handicapped Person” in Section 8 of this Tariff, up to a maximum of 50 requests per month.

5.7.3 Rates

Unless one of the exceptions listed above applies, charges will apply for each request made to the Directory Assistance operator:

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.12 REMOTE CALL FORWARDING SERVICE**

Service Area: Where available, the service area is defined by the NPA-NXX Codes and Exchanges listed below.

Local Calling Area: Exchanges and zones included in the local calling area for the NXX designations are specified below. NXXs associated with each particular exchange or zone may be found in the directory listings directory published by the incumbent local exchange carrier in the Customer's exchange area.

5.12.1 General

Remote Call Forwarding (RCF) is a local exchange service that utilizes a telephone number and Electronic Central Office facilities by which all incoming calls to the RCF telephone number are forwarded automatically to the subscriber's central office line in the same exchange as the RCF number or in a different exchange or to an inward WATS (800 Service) access line.

5.12.2 Regulations

- A. Remote Call Forwarding service is offered in Electronic offices where facilities permit.
- B. RCF paths may be used singly, in groups, or as overflow paths for foreign exchange trunk groups. Only one forwarding number is permitted per group.
- C. Remote Call Forwarding is not offered where the terminating number is a coin telephone.
- D. Identification of the originating telephone number is not provided to the Remote Call Forwarding customer.
- E. Transmission may not be satisfactory on all calls.
- F. Remote Call Forwarding is not represented as suitable for the transmission of data.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.12 REMOTE CALL FORWARDING SERVICE (Cont'd)****5.12.2 Regulations (Cont'd)**

- G. [Reserved]
- H. Remote Call Forwarding is provided on condition that the customer subscribe to sufficient RCF paths and terminating facilities to adequately handle calls to the RCF customer without interfering with or impairing any other services offered by the Company.
- I. The minimum charge for the RCF Service is the monthly rate for one month plus the Service Connection Charge.
- J. Charges for the call to the Remote Call Forwarding directory number shall be paid by the calling party.
- K. Each RCF group is entitled to one alphabetical and one classified listing at no additional charge in the directory which serves the associated RCF central office. Overflow paths associated with foreign exchange trunk groups are not listed. All other listing regulations for business individual lines apply, except that no charge applies for non-published service in connection with RCF.

5.12.3 Rates and Charges

In addition to the rates specified in Section 12 of this tariff, the subscriber to Remote Call Forwarding is responsible for dial type (DDD) station-to-station local and toll charge applicable to calls transferred from the forwarding location to the terminating location. The charge applies for each call answered, including person-to-person and collect calls which are refused at the terminating location. For calls transferred within the same local calling area, the message rate schedule for business service in the RCF central office applies. No allowance for local calls is included in the RCF monthly rate.

SECTION 5 – SUPPLEMENTAL SERVICES (Cont'd)**5.13 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI)**

Integrated Services Digital Network (ISDN) is a set of transmission protocols that provides end-to-end digital connectivity and integration of voice, data and video, on a single Subscriber loop to support a wide variety of services via the public switched network. The Primary Rate Interface (PRI) consists of a 23B+D configurations with 23 64Kbps Bearer (B) digital channels and one 64 Kbps Data (D) digital channel. The B channels are designed for voice, data, image, and sound transmissions. B channels can support synchronous, asynchronous or isochronous services at rates up to 64Kbps. B channels can be aggregated for higher bandwidth applications. The D channel PRI provides the out of band signaling, call control and messaging.

PRI is provided through standard four wire DS-1 (1.5 Mbps) point to point, private line facilities that enables Subscriber control of the 24 individual channels. PRI supports 1+, 0+, 7 digit and 10 digit IntraLATA and InterLATA services, as well as 01+ and 011+ international calling. PRI allows Subscribers to direct InterLATA voice, data and video over the Public Switched Telephone Network to the pre-subscribed IXC carrier of their choice, as well as 10XXX casual dialing. PRI also allows access to Public Switched Network services, such as Two-Way, Incoming Only, Outgoing Only and DID

Multiple PRI interfaces can be combined to function as one group. Utilizing a Backup D Channel arrangement, Subscribers are able to link up 20 DS-1s together, providing a maximum of 479 64Kbps B Channels controlled by a single D (signaling) channel.

SECTION 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)**7.2 SERVICE DESCRIPTIONS (Cont'd)****7.2.3 PBX Trunk Service (Cont'd)****D. Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI)****Description**

ISDN is a single integrated digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice data and image services via channelized transport facilities over a set of standard multipurpose user-network interfaces. PRI governs the connectivity between switching equipment (network or customer) and customer equipment and allows voice and data services, simultaneously while supporting circuit-switched and packet-switched connections.

The ISDN-PRI feature supports a 64 kb/s D-channel path between customer digital PBX equipment and the protocol handler in a PSU of the 5ESS (R) switch. The path is made up of a dedicated time slot between channel 24 on a digital facility interface (DFI) and the assigned protocol handler. This feature also provides the administration software for up to 23 B-channels associated with a D-channel in the same T1 facility (1.544 Mb/s for domestic). This interface supports both ISDN PBXs and host computers.

Centrex Service is a multi-station system offered to the business customer with 4 or more lines or trunks. It consists of digital switching equipment in the Company's switches connected to station lines on the customer's premises. Centrex Service enables station lines on the customer's premises. Centrex Service enables the customer to originate and receive calls within its system at no additional charge. Local measured usage charges apply to all other local calls. Local calling areas are as specified in Section 10.

Centrex Service is offered on a contracted basis with four terms: 24, 36, 60, and 84 months. Thirty days prior to the expiration of the contract term, the subscriber may cancel service or renew for a new term commitment. If the subscriber does not cancel or renew the service, service will continue on a month to month basis at the monthly rate associated with the twenty-four month term plan.

Each Centrex Station Line has the following characteristics:

Terminal Interface:	2-Wire or 4-Wire as required for the provision of the service

7.2.5 Term Liability/Termination Charges

Several of the services offered above are available at reduced prices if the Customer agrees at the time the order is placed to continued service for a specified period of time (“term”). If the Customer terminates service prior to the end of the term, in part or in whole, then termination charges will apply. If the customer disconnects service prior to the fulfillment of the term plan contracted, then a termination liability will be due to Company from Customer. The termination liability charge will be the difference between the monthly and the monthly rate for the selected commitment period multiplied by the actual number of months the plan has been in effect. The monthly rates used for this calculation will be those in effect at the time the service is disconnected.

SECTION 8 – SPECIAL SERVICES AND PROGRAMS

8.1 PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE

8.1.1 General

The Company will provide access to the Pennsylvania Telecommunications Relay Service (PA TRS) which is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth, at no additional cost.

Access to the PA TRS, includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech.

Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

8.1.2 Surcharge

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business lines served by the Company. This surcharge applies regardless of whether or not the access line uses the PA TRS.

The Commission may revise the surcharge more frequently than annually at its discretion. As of the effective date of this tariff, the following surcharge rates apply to all customer invoices issued. July 1, 2008.

Per residence access line, per month	\$0.08
Per business access line, per month	\$0.08

SECTION 8 – SPECIAL SERVICES AND PROGRAMS (Cont'd)**8.1 PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE (cont'd)****8.1.3 Rates**

Local calls will be charged at the applicable local flat rate or local measured service rate. Toll calls will be charged at the applicable toll rate found in the selected long distance provider's rate schedule or current tariff. If the customer has not chosen a long distance carrier the default carrier's rates will apply for the toll calls.

8.1.4 Regulations

- A. Only intrastate calls can be completed using the Pennsylvania Telecommunications Relay Service under the terms and conditions of this tariff.
- B. Charges for calls placed through the Relay Service will be billed as if direct distance dialed (DDD) from the point of origination to the point of termination. The actual routing of the call does not affect billing.
- C. Calls through the Relay Service may be billed to a third number only if that number is within the State of Pennsylvania. Calls may also be billed to calling cards issued by the Company or other carriers who may choose to participate in this service.

8.2 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

8.2.1 General

Universal Emergency Telephone Number Service (911 Service) is an arrangement of Company central office and trunking facilities whereby any telephone user who dials the number 911 will reach the emergency report center for the telephone from which the number is dialed or will be routed to an operator if all lines to an emergency report center are busy. If no emergency report center customer exists for a central office entity, a telephone user who dials the number 911 will be routed to an operator. The telephone user who dials the 911 number will not be charged for the call.

SECTION 9 – SPECIAL ARRANGEMENTS**9.1 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE**

At the customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred or charged to the Company will apply. If installation is started during regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

9.2 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS

Rates for ICB arrangements will be developed on a case-by-case basis in response to a bona fide request from a customer or prospective customer for service which vary from the tariffed arrangements. Rates quoted in response to such requests may be different for tariffed service than those specified for such service in this Tariff. ICB rates will be offered to customers in writing and will be made available to similarly situated customers.

10.1 ALPHABETICAL DIRECTORY

10.1.1 Main Listings

- A. The Company contracts with an outside provider, which may be the Incumbent Local Exchange Carrier, for directory listings. All references to the directory of the Company will mean the directory published by the outside provider.
- B. The term “listing” refers to the information in light face type in the alphabetical directory and the Directory Assistance Records of the Company.
- C. Listings provided without charge are as follows:
 - 1) One listing for each individual line. Where individual lines are grouped for incoming service, only one listing will be provided for each such group.
 - 2) One listing for each PBX or interconnecting system.
- D. The name listed in the directory has no bearing on who is responsible for payment or the account associated with the number being listed.

SECTION 10 – DIRECTORY (Cont'd)**10.1 ALPHABETICAL DIRECTORY (Cont'd)****10.1.2 Composition of Listings**

- A. Listings are limited to information essential to the identification of the listed party.
- B. Addresses
 - 1) Each listing normally includes the number and street name location where the telephone service is furnished. The name of a building may be shown in case of buildings commonly known by name.
 - 2) Upon Customer request, the address may be omitted, a post office box number may be shown, or a partial address (omitting number) may be shown. In directories where locality names are normally part of the address, a partial address consisting of the name of a locality may be shown.
- C. The Customer may request a main listing different from the billing name and address of the service. All such requests will be honored to the extent possible under the terms of the contract described in 10.1.1.a above.

10.1.3 Types of Listings

SECTION 10 – DIRECTORY (Cont'd)**10.1 ALPHABETICAL DIRECTORY (Cont'd)****10.1.3 Types of Listings (Cont'd)****A. Indented Listings**

An indented listing is indented under a standard listing or under a caption, and may not include more than a designation, address, and telephone number. A caption consists of a name, and may include a designation, but not a telephone number. An address may be included only if all of the services listed under the caption are located at the same address. When the same designation is appropriate for two or more indented listings, it may be shown as a sub-caption. Indented listings are permissible when a Customer is entitled to two or more listings of the same name with different addresses or different telephone numbers.

B. Duplicate Listings

Any listing may be duplicated in a different directory (where offered) or under a separate geographical heading in the same directory. Such listing may be duplicated in indented form.

C. Reference Listing

A Customer with a listing in a different geographic heading may have an indented listing in reference form (“See ...”) in lieu of a duplicate listing.

D. Cross Reference Listing

A Customer may have a related listing in the same alphabetic group listing when required for identification of the listed party and not designated for advertising purposes.

F. Semi-Private Listing

At the request of the Customer, the telephone number is omitted from the Company's alphabetical directory and designated as a "non listed" telephone number and the telephone number is included in the Directory Assistance records available to the general public. In addition, the telephone number is displayed for 911 and E911 emergency service and provided when a law enforcement agency requests it in writing.

SECTION 10 – DIRECTORY (Cont'd)**10.1 ALPHABETICAL DIRECTORY (Cont'd)****10.1.4. Non-Published Service****A. General**

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public. However, where a government agency subscribes to Universal Emergency Telephone Number Service (911) or Enhanced Universal Emergency Telephone Service (E911), the telephone number, name, and address of a Customer with non-published service will be displayed when the Customer dials 911 and is connected to a Public Safety Answering Point (PSAP) for dispatch of emergency service. In addition, the Company will provide a Customer's non-published number when a law enforcement agency requests it in writing.

B. Regulations

- 1) Except as otherwise provided in this paragraph, incoming calls to non-published service will be completed only when the calling party places the call by number. In claims of emergencies involving life and death, the operator will call the non-published number and request permission to make an immediate connection to the calling party. If the connection is refused, the calling party will be advised.
- 2) The acceptance by the Company of the Customer's request to refrain from publishing his or her telephone number in the Directory does not create any relationship or obligation, direct or indirect, to any person other than the Customer.

SECTION 10 – DIRECTORY (Cont'd)**10.2 DIRECTORY INFORMATION REQUESTS**

Requests for directory information are provided by dialing Directory Assistance. (See Section 5.7.) Information will not be issued by the Company outside of normal directory assistance procedures unless the request is made by an emergency agency. Directory information will only be provided to emergency agencies after a formal request is presented to the Company in writing. The requesting agency must agree to pay for the costs incurred by the Company in providing the information, and must certify that the information will be used only for the purpose of providing its services to the community.

10.3 LIABILITY OF THE COMPANY FOR ERRORS**10.3.1 General**

In the absence of gross negligence or willful misconduct, and except for the allowances stated elsewhere in this Tariff, no liability for any damage of any nature whatsoever arising from errors in directory listings or errors in listings obtainable from the Directory Assistance operator, including errors in reporting thereof, shall attach to the Company. A listing is considered in error only when it shows the Customer on the wrong street, or in the wrong community. The Customer must notify the Company of an error.

10.3.2 Allowance for Errors

An allowance for errors in published directory listings or for errors in listings obtainable from the Directory Assistance operator shall be given as follows:

For Free or non-charge published directory listings, credit shall be given at the rate of two times the monthly rate for an additional or charge listing affected, for each month of the life of the directory or the charge period during which the error occurs. The Company may issue the credit in a lump sum if it chooses to do so.

B. Charge Listings

For each additional or charge published directory listing, credit shall be given at the monthly tariff rate for each individual line affected, for each month of the life of the directory or the charge period during which the error occurs.

C. Operator Records

For free or charge listings obtainable from records used by the Directory Assistance operator, upon notification to the Company of the error in such records by the Customer, the Company shall be allowed a period of three business days to make the correction. If the correction is not made in that time for reasons within the control of the Company, credit shall be given at the rate of two-thirtieths (2/30) of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected.

The total amount of any credit shall not exceed, on a monthly basis, the total of the charges for each listing plus the basic monthly rate for the line(s) in question. No allowance will be provided for errors caused by other carriers or operator service providers.

**SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY****13.1 General**

The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintaining a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual For The Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or re-issuance of these regulations or manuals supersede tariff language contained herein.

The TSP program has two components, restoration and provisioning.

A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.

A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

**SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)****13.1.2 TSP Request Process – Restoration**

To request a TSP restoration priority assignment, a prospective TSP user must:

- A. determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.
 - National Security Leadership
 - National Security Posture and U.S. Population Attack Warning
 - Public Health, Safety, and Maintenance of Law and Order
 - Public Welfare and Maintenance of National Economic Posture
- B. identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.
- C. Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov>).
- D. For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
- E. Submit the SF 315 to the OPT.
- F. Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of the NS/EP services.

**SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)****13.1.3 TSP Request Process – Provisioning**

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2a. above for restoration priority assignment except for the following differences. The user should:

- A. Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2a(a) above and are so critical that they must be provisioned at the earliest possible time, without regard to the cost of the user.
- B. Verify that the Company cannot meet the service due date without a TSP assignment.
- C. Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of military service, commander of a major military command, or state governor.

SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)

13.1.4 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidations must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

**SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)****13.1.5 Responsibilities of the Company**

The Company will perform the following:

- A. Provide TSP service only after receipt of TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.
- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I. Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- J. Assist in ensuring that priority level assignments of NS/EP services are accurately identified “end-to-end” by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K. Disclose content of the NS/EP TSP database only as may be required by law.
- L. Comply with regulations and procedures supplemental to and consistent with guidelines issues by the OPT.

**SECTION 13 – EMERGENCY/CRISIS/DISASTER RESTORATION AND
PROVISIONING – TELECOMMUNICATIONS SERVICE PRIORITY (Cont'd)****13.1.6 Preemption**

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

SECTION 14 – InterLATA and IntraLATA TOLL PRESUBSCRIPTION**14.1 General**

Toll Presubscription is a procedure whereby a customer designates to the Telephone Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs) which the customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company.

Selection of toll presubscription provider by an end user is subject to the terms and conditions following:

- A. At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user. This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), as specified in B.1 following.

SECTION 14 – InterLATA and IntraLATA TOLL PRESUBSCRIPTION (cont'd)

14.1 (continued)

B. Presubscription Charge Application**1. End user choices for toll presubscription:**

Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.

Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.

2. If a new customer cannot decide upon presubscription IXCs, the Telephone Company may extend a 30-day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.**3. If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein. The IXC must provide written notification to the Telephone Company that this activity has taken place.**

Following the IXC's discontinuance of service, the Telephone Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance.

4. An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

SECTION 14 – InterLATA and IntraLATA TOLL PRESUBSCRIPTION (cont'd)**B. Presubscription Charge Application (cont'd)**

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section. In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC.

C. End User Charge Discrepancy

1. When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:

A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.

When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.

If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user.

2. Verification of Orders for Telemarketing

Neither the IXC or the Telephone Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slamming practices and procedures.

SECTION 14 – InterLATA and IntraLATA TOLL PRESUBSCRIPTION (cont'd)**D. PIC Switchback Option-Business/Residence**

PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when an end user denies requesting a change in primary toll carrier submitted by the IXCs. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Telephone Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous IXC at no charge. If this service is made available by the Telephone Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 days notice to the Telephone Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.
