

# Hosted PBX

***American Telephone Company's Hosted PBX platform provides a robust suite of features comparable to those of any high-end system.***

Our Hosted PBX product is ideal for any business looking to replace premised based phone systems or looking to gain total control of their telecommunications environment without paying for costly service or software assurance contracts.

## Benefits

- National coverage; Port any number to ATC's Hosted PBX platform from any other telecom provider
- Order new domestic and/or International DID's
- Setup multiple inbound and outbound routes to guarantee 100% uptime
- Unlimited extensions
- Standard Features: fax to email, voicemail to email, conference bridges, time of day routing, auto attendant, telecommuting, IVR, ACD, hunt groups, and many more!

## Flexibility

- Online portal access
- Change extensions on the fly
- Add new phones in days

## Savings

- Fixed usage charges
- No service contracts
- No software assurance contracts
- Volume and term discount plans available
